- 25X1 4. On 30 March, about 700 troops received training in the yard of the  
25X1 Schuetzen Kaserne. [redacted]

[redacted] two hours  
later, two other columns left the installation in the same direction. They  
included 36 sidecar motorcycles, 9 light machine guns and 2 x 80-mm mortars  
and 30 sidecar motorcycles, 8 light machine guns, 2 mortars and ammunition  
truck [redacted]

- 25X1 1. [redacted] Comment. [redacted] confirm the return of units of the 6th  
Gds Mech Div from exercises of the division in the Mirow-Neuruppin area  
and farther to the south. The shipment unloaded on 28 March is believed to  
have included units of the 240th Gds Mort Regt, besides troops of the  
17th Gds Mech Regt. The 240th Gds Mort Regt is thus considered confirmed  
up to 28 March.

- 25X1 2. [redacted] Comment. According to the weapons, probably units of the 51st (?)  
Ntrcl Regt of the Fourth Gds Mech Army. It appears that, according to

25X1 [redacted] the troops went to Justerbog [redacted] 25X1  
[redacted] where they may have taken part as enemy group in an exercise  
of the 10th Gds Tank Div. It is therefore believed that the tank unit of  
the 6th Gds Mech Div entrained in Ebersweide on 29 March presumably went  
to Templin for combat firing rather than Justerbog. [redacted] 25X1

25X1 Official records indicated that the elements of the above mentioned regiment  
25X1 returned on 1 April [redacted] which was seen en route through  
Satzkorn. [redacted]
